Objective

To secure a challenging role as a Full Stack Developer where I can apply my skills in front-end and back-end technologies like HTML, CSS, JavaScript, Python, Django, and MySQL, while gaining hands-on experience and contributing to innovative projects that enhance user experience and drive business success.

Skills

Programming Languages : Python , SQL , C ,CPP

Front End Technologies : HTML , CSS , Javascript

Back End Framework : Django

Database : MySQL

Education

Bachelor's of Engineering (Electrical)

A.C.Patil Clg of Engineering, Navi Mumbai Kharghar

2019 - 2022

Diploma in Engineering

S.S.Jondhale Polytechnic, Ambernath

2016 - 2019

Projects

1.Power Management System (Case Study) | SQL

- Developed a comprehensive Electricity Management System utilizing SQL to manage user data, meter readings, consumption records, billing, payments, and complaints
- Designed and implemented relational database schemas, performed complex queries, and ensured data integrity and efficiency.
- Enhanced practical skills in database management, SQL, and system design through hands-on project execution

2.TrendWear E-commerce Website | Python , Django

- TrendWear is a fully functional e-commerce platform that showcases a solid implementation of Django's capabilities in web development.
- The platform includes essential features for any online store, such as user authentication, product management, dynamic cart functionality, and payment integration for a seamless checkout experience.
- This project is a great demonstration of how Django can be used to create a scalable and maintainable web application, providing a robust foundation for further expansion and improvement.

3.AnimeWorld Website Design | Web Design [↗](#)

- Developed a responsive website using HTML, CSS, and JavaScript, offering a smooth and engaging user experience for anime fans.
- Designed a responsive and interactive platform that showcases anime content in a visually appealing layout, ensuring a seamless viewing experience across all devices.
